VOLUME SUBJECT INDEX

A

A_1 adenosine receptor
Characterization of A_1 Adenosine Receptors in Atrial and Ventricular Myocardium From Diseased Human Hearts, 1201
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066

Acetazolamide inhibition of tracer bicarbonate hepatocyte entry
Handling of Tracer Bicarbonate by the Liver: The Relative Impermeability of Hepatocyte Cell Membranes to the Ionic Species, 1646

Acetylcholine
Acetylcholine Causes Coronary Vasodilation in Dogs and Baboons, 1580
Attenuation of No-Reflow Phenomenon, Neutrophil Activation, and Reperfusion Injury in Intestinal Microcirculation by Topical Adenosine, 426
Mathematical Model of the Changes in Heart Rate Elicited by Vagal Stimulation, 1330
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283

Acetylcholinesterase
Mathematical Model of the Changes in Heart Rate Elicited by Vagal Stimulation, 1330
Regional Distribution of the Molecular Forms of Acetylcholinesterase in Adult Rat Heart, 55

Acetylstrophanthidin
Comparison of the Effects of Different Inotropic Interventions on Force, Velocity, and Power in Rabbit Myocardium, 1161

Acidosis
Metabolic Recovery of Acidotic Rabbit Cardiac Muscle: Effects of Low pH and Oxygen Shortage, 909

Acridine orange
Sodium-Lithium Exchange and Sodium-Proton Exchange Are Mediated by the Same Transport System in Sarcolemmal Vesicles From Bovine Superior Mesenteric Artery, 818

Actin
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515

Actin microfilaments
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591

Action potential duration
Developmental Changes in the Electrophysiological Properties and the β-Adrenergic Receptor-Effector Complex in Atrial Fibers of the Canine Coronary Sinus, 325

Active hyperemia
Comparison of the Effects of Increased Myocardial Oxygen Consumption and Adenosine on the Coronary Microvascular Resistance, 1296

Actomyosin
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515

Acute ischemia
Intermittent Coronary Sinus Occlusion After Coronary Arterial Ligation Results in Venous Retroperfusion, 695

Acute lung injury
Effects of Recombinant Human Tumor Necrosis Factor Alpha, Lymphotoxin, and *Escherichia coli* Lipopolysaccharide on Hemodynamics, Lung Microvascular Permeability, and Eicosanoid Synthesis in Anesthetized Sheep, 502

Adenine nucleotides
Degree and Time Sequence of Hypothermic Protection Against Experimental Ischemic Acute Renal Failure, 1263

Adenosine
Adenosine Produces Pulmonary Vasoconstriction in Sheep: Evidence for Thromboxane A_2/Prostaglandin Endoperoxide– Receptor Activation, 1516
Beneficial Effects of α_2-Adrenoceptor Activity on Ischemic Myocardium During Coronary Hypoperfusion in Dogs, 1632
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Characterization of A_1 Adenosine Receptors in Atrial and Ventricular Myocardium From Diseased Human Hearts, 1201
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417
Subendomyocardial Exhaustion of Blood Flow Reserve and Increased Fibrosis in Conscious Dogs With Heart Failure, 971

Adenosine diphosphate
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417

Adenylate cyclase
One Hour of Myocardial Ischemia Decreases the Activity of the Stimulatory Guanine-Nucleotide Regulatory Protein G_s, 1145
Prostaglandin E Receptors in Cardiac Sarcolemma: Identification and Coupling to Adenylate Cyclase, 538

Adenylate deaminase
IMP Production by ATP-Depleted Adult Rat Heart Cells: Effects of Glycolysis and α_1-Adrenergic Stimulation, 754

Aequorin
Direct Measurement of Changes in Intracellular Calcium Transients During Hypoxia, Ischemia, and Reperfusion of the Intact Mammalian Heart, 1029

Afferent arteriole
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475

Aftercontraction
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115

Afterdepolarization
Amantadine-Induced Afterpotentials and Automaticity in Guinea Pig Ventricular Myocytes, 880

Afterload
The Effect of Acute Alterations in Left Ventricular Afterload and β-Adrenergic Tone on Indices of Early Diastolic Filling Rate, 406

Aggregating platelets
Natural Course of the Impairment of Endothelium-Dependent Relaxations After Balloon Endothelium Removal in Porcine Coronary Arteries: Possible Dysfunction of a Pertussis Toxin–Sensitive G Protein, 740

Aging
Differences in Load Dependence of Relaxation Between the Left and Right Ventricular Myocardium as a Function of Age in Rats, 1499
Airway collapse
Air Trapping in the Lungs During Cardiopulmonary Resuscitation in Dogs: A Mechanism for Generating Changes in Intrathoracic Pressure, 946
α-Adrenergic receptors
Developmental Changes in Guanine Nucleotide Regulatory Proteins in the Rat Myocardial α_1-Adrenergic Receptor Complex, 1763
The Role of α_1- and α_2-Adrenergic Receptors in Mediation of Coronary Vasoconstriction in Hypoperfused Ischemic Myocardium During Exercise, 1688
α_1-Adrenergic stimulation
IMP Production by ATP-Depleted Adult Rat Heart Cells: Effects of Glycolysis and α_1-Adrenergic Stimulation, 754
α-Adrenoceptor
Aminergic Histofluorescence and Contractile Responses to Transmural Electrical Field Stimulation and Norepinephrine of Human Middle Cerebral Arteries Obtained Promptly After Death, 316
α_2-Adrenoceptor activity
Beneficial Effects of α_2-Adrenoceptor Activity on Ischemic Myocardium During Coronary Hypoperfusion in Dogs, 1632
α-Phenyl *N-tert*-butyl nitrone
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607
Amiloride
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045
Amiodarone
Amiodarone: Biochemical Evidence for Binding to a Receptor for Class I Drugs Associated With the Rat Cardiac Sodium Channel, 477
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157
Anaphylatoxins
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
Anaphylaxis, complement and cardiac
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
Anesthesia
Volatile Anesthetics Block Intercellular Communication Between Neonatal Rat Myocardial Cells, 829
Angiotensin II
Angiotensin II Modulates Cardiac Na^+ Channels in Neonatal Rat, 1804
Anisotropic discontinuous propagation
Interaction of Inhomogeneities of Repolarization With Anisotropic Propagation in Dog Atria: A Mechanism for Both Preventing and Initiating Reentry, 1612
Anisotropic repolarization patterns
Interaction of Inhomogeneities of Repolarization With Anisotropic Propagation in Dog Atria: A Mechanism for Both Preventing and Initiating Reentry, 1612
Anisotropy
Cellular Uncoupling Can Unmask Dispersion of Action Potential Duration in Ventricular Myocardium: A Computer Modeling Study, 1426
Antiarrhythmic agents
Stereoselective Block of Cardiac Sodium Channels by RAC109 in Single Guinea Pig Ventricular Myocytes, 1306
Antiarrhythmic drug receptor
Amiodarone: Biochemical Evidence for Binding to a Receptor for Class I Drugs Associated With the Rat Cardiac Sodium Channel, 477
Antiarrhythmic drugs
Mechanisms of Termination of Reentrant Atrial Arrhythmias by Class I and Class III Antiarrhythmic Agents, 1565
Rate-Dependent Changes in Intraventricular Conduction Produced by Procainamide in Anesthetized Dogs: A Quantitative Analysis Based on the Relation Between Phase 0 Inward Current and Conduction Velocity, 1485
Antihypertensive agents
Enhancement of Potassium-Sensitive Current in Heart Cells by Pinacidil: Evidence for Modulation of the ATP-Sensitive Potassium Channel, 436
Antiserum
Atrial Natriuretic Factor–Specific Antibody As a Tool for Physiological Studies: Evidence for Role of Atrial Natriuretic Factor in Aldosterone and Renal Electrolyte Regulation, 1324
Aorta
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
Aortic banding
Change of Residual Strains in Arteries due to Hypertrophy Caused by Aortic Constriction, 1340
Aortic pressure
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Aortic rings
Change of Residual Strains in Arteries due to Hypertrophy Caused by Aortic Constriction, 1340
Aortic wall stress
Morphometric Analyses of Rabbit Thoracic Aorta After Poststenotic Dilatation, 1774
Arachidonic acid
Arachidonate Metabolism in Cultured Fibroblasts Derived From Normal and Infarcted Canine Heart, 671
f Met-Leu-Phe Receptor Expression by an Interstitial Cell in Rabbit Right Atrium Following Left Ventricular Myocardial Infarction, 215
Arachidonic acid metabolism
Reduction of Lipid Peroxidation in Reperfused Isolated Rabbit Hearts by Diltiazem, 838
Area postrema
Central Nervous System Mechanisms Involved in Inhibition of Renal Sympathetic Nerve Activity Induced by Arginine Vasopressin, 1390
Arginine vasopressin
Central Nervous System Mechanisms Involved in Inhibition of Renal Sympathetic Nerve Activity Induced by Arginine Vasopressin, 1390
Arrhythmias
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
Chaotic Activity in a Mathematical Model of the Vagally Driven Sinoatrial Node, 1350
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157
Ionic Basis and Analytical Solution of the Wenckebach Phenomenon in Guinea Pig Ventricular Myocytes, 775
Mechanisms of Termination of Reentrant Atrial Arrhythmias by Class I and Class III Antiarrhythmic Agents, 1565
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146
Slow Recovery of Excitability and the Wenckebach Phenomenon in the Single Guinea Pig Ventricular Myocyte, 761
Arterial baroreflex
Baroreflex Control of Renal Sympathetic Nerve Activity Is Preserved in Heart Failure Despite Reduced Arterial Baroreceptor Sensitivity, 1526
Arterial diameter
Mechanism of Action of EDRF on Pressurized Arteries: Effect on K^+ Conductance, 199

Arterial elastance
Ventriculoarterial Coupling in Normal and Failing Heart in Humans, 483
Arterial pressure
Thyrotropin-Releasing Hormone Given Intrathecally to the Rat Increases Arterial Pressure and Heart Rate, 859
Arterial smooth muscle
Acute and Long-term Effects of Tissue Culture on Contractile Reactivity in Renal Arteries of the Rat, 1125
Arteriolar density
Coronary Angiogenesis During Long-term Hypertension and Left Ventricular Hypertrophy in Dogs, 352
Arteriolar diameter
Effects of Chronic Hypertension and Its Reversal on Arteries and Arterioles, 869
Arteriolar structural adaptations
Effects of Chronic Hypertension and Its Reversal on Arteries and Arterioles, 869
Arteriolar tone
Effects of Chronic Hypertension and Its Reversal on Arteries and Arterioles, 869
Arterioles
Nonuniform Vasomotor Responses of the Coronary Microcirculation to Serotonin and Vasopressin, 343
Artery, middle cerebral
Aminergic Histofluorescence and Contractile Responses to Transmural Electrical Field Stimulation and Norepinephrine of Human Middle Cerebral Arteries Obtained Promptly After Death, 316
Aspirin
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220
Atheroma
Intramural Hemorrhage and Endothelial Changes in Atherosclerotic Coronary Artery After Repetitive Episodes of Spasm in X-ray–Irradiated Hypercholesterolemic Pigs, 272
ATP
Metabolism of Adenine Nucleotides in Human Blood, 531
ATP depletion
IMP Production by ATP-Depleted Adult Rat Heart Cells: Effects of Glycolysis and α_1-Adrenergic Stimulation, 754
ATP-sensitive channel
Enhancement of Potassium-Sensitive Current in Heart Cells by Pinacidil: Evidence for Modulation of the ATP-Sensitive Potassium Channel, 436
Atrial contraction and relaxation
Analysis of the Characteristics of the Flow Velocity Waveforms in Left Atrial Small Arteries and Veins in the Dog, 1172
Atrial flutter
Mechanisms of Termination of Reentrant Atrial Arrhythmias by Class I and Class III Antiarrhythmic Agents, 1565
Atrial morphometry
Multiple Regional Differences in Cellular Properties That Regulate Repolarization and Contraction in the Right Atrium of Adult and Newborn Dogs, 1594
Atrial natriuretic factor
Atrial Natriuretic Factor–Specific Antibody As a Tool for Physiological Studies: Evidence for Role of Atrial Natriuretic Factor in Aldosterone and Renal Electrolyte Regulation, 1324
Ventricles as a Major Site of Atrial Natriuretic Factor Synthesis and Release in Cardiomyopathic Hamsters With Heart Failure, 71
Atrial natriuretic peptide
Calcium, Its Role in Isoproterenol-Stimulated Atrial Natriuretic Peptide Secretion by Superfused Rat Atria, 600
Effect of Atrial Natriuretic Peptide on Coronary Collateral Blood Flow, 1671
Enkephalinase Inhibition Increases Plasma Atrial Natriuretic Peptide Levels, Glomerular Filtration Rate, and Urinary Sodium Excretion in Rats With Reduced Renal Mass, 640
Renal Vasoconstriction by the Endothelial Cell–Derived Peptide Endothelin in Spontaneously Hypertensive Rats, 1370
Atrial pacing
Abnormal Subendocardial Blood Flow in Pressure Overload Hypertrophy Is Associated With Pacing-Induced Subendocardial Dysfunction, 1555
Atrial reentry
Interaction of Inhomogeneities of Repolarization With Anisotropic Propagation in Dog Atria: A Mechanism for Both Preventing and Initiating Reentry, 1612
Atrial repolarization
Multiple Regional Differences in Cellular Properties That Regulate Repolarization and Contraction in the Right Atrium of Adult and Newborn Dogs, 1594
Atrial troponin T isoforms
Multiple Regional Differences in Cellular Properties That Regulate Repolarization and Contraction in the Right Atrium of Adult and Newborn Dogs, 1594
Atrioventricular conduction
Inhibition of Cardiac Vagal Effects by Neurally Released and Exogenous Neuropeptide Y, 1536
Atrioventricular junction
Distribution of Conduction System Fibers in the Developing and Adult Rabbit Heart Revealed by an Antineurofilament Antibody, 360
Atrium
Direct Actions of Cocaine on Cardiac Cellular Electrical Activity, 185
Autonomic ganglia
Modulation of Cardiac Autonomic Neurotransmission by Epicardial Superfusion: Effects of Hexamethonium and Tetrodotoxin, 1212
Autonomic innervation
Chronotropic Responses of Chick Atria to Field Stimulation After Various Neural Crest Ablations, 1547
Autoregulation
Contribution of the Baroreflex Afferent Nerves to the Production of Vasoconstricted Hypertension in Volume-Expanded Dogs, 1467
Coronary Pressure-Flow Relations in Hypertensive Left Ventricular Hypertrophy: Comparison of Intact Autoregulation With Physiological and Pharmacological Vasodilation in the Dog, 224

B

Baboons
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578
Baroreceptor reflex
Differential Cardiovascular Effects of Centrally Administered Vasopressin in Conscious Long Evans and Brattleboro Rats, 925
Baroreceptors
Contribution of the Baroreflex Afferent Nerves to the Production of Vasoconstricted Hypertension in Volume-Expanded Dogs, 1467
Determinants of Sensitization of Carotid Baroreceptors by Pulsatile Pressure in Dogs, 566
Baroreflex
A Central Mechanism of Acute Baroreflex Resetting in the Conscious Dog, 63
β-Adrenergic agonist
Calcium, Its Role in Isoproterenol-Stimulated Atrial Natriuretic Peptide Secretion by Superfused Rat Atria, 600
β-Adrenergic receptors
Ca^{2+} Uptake by Cardiac Sarcoplasmic Reticulum From Patients With Idiopathic Dilated Cardiomyopathy, 1141
One Hour of Myocardial Ischemia Decreases the Activity of the Stimulatory Guanine-Nucleotide Regulatory Protein G_s, 1145
Developmental Changes in the Electrophysiological Properties and the β-Adrenergic Receptor-Effector Complex in Atrial Fibers of the Canine Coronary Sinus, 325

β-Adrenergic stimulation
The Effect of Acute Alterations in Left Ventricular Afterload and β-Adrenergic Tone on Indices of Early Diastolic Filling Rate, 406
β_2-Adrenoceptors
Intracoronary Injections of Salbutamol Demonstrate the Presence of Functional β_2-Adrenoceptors in the Human Heart, 546
Bicarbonate impermeability of hepatocyte basolateral cell membrane
Handling of Tracer Bicarbonate by the Liver: The Relative Impermeability of Hepatocyte Cell Membranes to the Ionic Species, 1646
Binding site
Characterization and Pharmacological Relevance of High Affinity Binding Sites for [^{3}H]LY186126, a Cardiotonic Phosphodiesterase Inhibitor, in Canine Cardiac Membranes, 154
Biochemical kinetics
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515
Blood-brain barrier
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417
Blood pressure
Differential Cardiovascular Effects of Centrally Administered Vasopressin in Conscious Long Evans and Brattleboro Rats, 925
Differential Effect of Physical Exercise Routines on Ventricular Myosin and Peripheral Catecholamine Stores in Normotensive and Spontaneously Hypertensive Rats, 370
Vascular Remodeling in the Growth Hormone Transgenic Mouse, 1233
Blood pressure control
Determinants of Sensitization of Carotid Baroreceptors by Pulsatile Pressure in Dogs, 566
Blood velocity waveform
Analysis of the Characteristics of the Flow Velocity Waveforms in Left Atrial Small Arteries and Veins in the Dog, 1172
Bovine mesenteric artery
A Novel Neurogenic Vasodilator Mechanism in Bovine Mesenteric Artery, 903
Brain stem
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417
Brattleboro rat
Differential Cardiovascular Effects of Centrally Administered Vasopressin in Conscious Long Evans and Brattleboro Rats, 925
2,3-Butanedione monoxime
Protection of Human Left Ventricular Myocardium From Cutting Injury With 2,3-Butanedione Monoxime, 1441

C

C3a
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
C3 depletion
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
C3 reconstitution
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
C5a
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
Calcium-activated K^+ current
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Calcium overload
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045
Caffeine
Comparison of the Effects of Different Inotropic Interventions on Force, Velocity, and Power in Rabbit Myocardium, 1161
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Calcium
Alterations in Cardiac Sarcoplasmic Reticulum Calcium Transport in the Postischemic "Stunned" Myocardium, 526
Calcium, Its Role in Isoproterenal-Stimulated Atrial Natriuretic Peptide Secretion by Superfused Rat Atria, 600
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
Direct Measurement of Changes in Intracellular Calcium Transients During Hypoxia, Ischemia, and Reperfusion of the Intact Mammalian Heart, 1029
A Plasmatic Factor May Cause Platelet Activation in Acute Ischemic Stroke, 1679
Calcium antagonist
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475
Calcium antagonist receptors
Alterations in Calcium Antagonist Receptors and Sodium-Calcium Exchange in Cardiomyopathic Hamster Tissues, 205
Calcium binding
Contractile Shortening Response of Ventricular Cells to Extracellular Acidosis: Evidence for Two-Site Control of H^+-Ca^{2+} Interaction, 894
Calcium channel
Differential Effect of Global Ischemia on the Ryanodine-Sensitive and Ryanodine-Insensitive Calcium Uptake of Cardiac Sarcoplasmic Reticulum, 1400
Electrophysiological Mechanisms of Minoxidil Sulfate–Induced Vasodilation of Rabbit Portal Vein, 1102
Influence of Rate-Dependent Cellular Uncoupling on Conduction Change During Simulated Ischemia in Guinea Pig Papillary Muscles: Effect of Verapamil, 95
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
Calcium channel blockers
Reduction of Lipid Peroxidation in Reperfused Isolated Rabbit Hearts by Diltiazem, 838
Calcium current
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066
Multiple Types of Ca^{2+} Currents in Single Canine Purkinje Cells, 1735
Calcium transient
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
Calcium transport
Alterations in Cardiac Sarcoplasmic Reticulum Calcium Transport in the Postischemic "Stunned" Myocardium, 526
Ca^{2+} Uptake by Cardiac Sarcoplasmic Reticulum From Patients With Idiopathic Dilated Cardiomyopathy, 1141
Calcium uptake
Differential Effect of Global Ischemia on the Ryanodine-Sensitive and Ryanodine-Insensitive Calcium Uptake of Cardiac Sarcoplasmic Reticulum, 1400
cAMP
Calcium, Its Role in Isoproterenol-Stimulated Atrial Natriuretic Peptide Secretion by Superfused Rat Atria, 600
Canine coronary sinus
Developmental Changes in the Electrophysiological Properties and the β-Adrenergic Receptor-Effector Complex in Atrial Fibers of the Canine Coronary Sinus, 325

Capillary endothelium
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Capillary number
Capillary Growth in Anemia-Induced Ventricular Wall Remodeling in the Rat Heart, 1182
Capillary-tissue exchange model
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Capillary permeability
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591
Carbohydrate utilization
Effects of Inhibition of Fatty Acid Oxidation on Myocardial Kinetics of ^{11}C-Labeled Palmitate, 1787
Carbon-centered radicals
Inhibition of Sarcolemmal Carbon-Centered Free Radical Formation by Propranolol, 1151
Carbonic anhydrase facilitation of tracer bicarbonate liver cell entry
Handling of Tracer Bicarbonate by the Liver: The Relative Impermeability of Hepatocyte Cell Membranes to the Ionic Species, 1646
Cardiac
Single-Channel Recordings From Human Cardiac Sarcoplasmic Reticulum, 1445
Cardiac arrhythmia, treatment of
Rate-Dependent Changes in Intraventricular Conduction Produced by Procainamide in Anesthetized Dogs: A Quantitative Analysis Based on the Relation Between Phase 0 Inward Current and Conduction Velocity, 1485
Cardiac conduction system
Electrophysiological Determinants of Antidromic Reentry Induced During Atrial Extrastimulation: Insights From a Pacing Model of Wolff-Parkinson-White Syndrome, 295
Rate-Dependent Changes in Intraventricular Conduction Produced by Procainamide in Anesthetized Dogs: A Quantitative Analysis Based on the Relation Between Phase 0 Inward Current and Conduction Velocity, 1485
Cardiac contractility
Volatile Anesthetics Block Intercellular Communication Between Neonatal Rat Myocardial Cells, 829
Cardiac development
Distribution of Conduction System Fibers in the Developing and Adult Rabbit Heart Revealed by an Antineurofilament Antibody, 360
Shortening Velocity and Myosin and Myofibrillar ATPase Activity Related to Myosin Isoenzyme Composition During Postnatal Development in Rat Myocardium, 446
Cardiac electrophysiology
Angiotensin II Modulates Cardiac Na^+ Channels in Neonatal Rat, 1804
Rate-Dependent Changes in Intraventricular Conduction Produced by Procainamide in Anesthetized Dogs: A Quantitative Analysis Based on the Relation Between Phase 0 Inward Current and Conduction Velocity, 1485
Cardiac energetics
The Linear Relation Between Oxygen Consumption and Pressure-Volume Area Can Be Reconciled With the Fenn Effect in Dog Left Ventricle, 1380
Cardiac hypertrophy
Significance of Myocardial α- and β-Adrenoceptors in Catecholamine-Induced Cardiac Hypertrophy, 1417
Cardiac mechanics
The Linear Relation Between Oxygen Consumption and Pressure-Volume Area Can Be Reconciled With the Fenn Effect in Dog Left Ventricle, 1380
Cardiac myocytes
Amiodarone: Biochemical Evidence for Binding to a Receptor for Class I Drugs Associated With the Rat Cardiac Sodium Channel, 477
Cardiac myosin
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515
Cardiac myosin light chain
Quantification of Myocardial Infarct Size After Coronary Reperfusion by Serum Cardiac Myosin Light Chain II in Conscious Dogs, 684
Cardiac output
Effects of Increasing Afterload on Left Ventricular Output in Fetal Lambs, 127
Renal Vasoconstriction by the Endothelial Cell–Derived Peptide Endothelin in Spontaneously Hypertensive Rats, 1370
Cardiac performance
Effects of Increasing Afterload on Left Ventricular Output in Fetal Lambs, 127
Cardiac Purkinje fiber
Intracellular pH of Canine Subendocardial Purkinje Cells Surviving in 1-Day-Old Myocardial Infarcts, 554
Cardiac toxicity
Direct Actions of Cocaine on Cardiac Cellular Electrical Activity, 185
Cardiac transport function
Comparison of the Myocardial Uptake of a Technetium-Labeled Isonitrile Analogue and Thallium, 632
Cardiac ventricular cells
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
Cardiomyocytes
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066
Cardiopulmonary baroreflex
Baroreflex Control of Renal Sympathetic Nerve Activity Is Preserved in Heart Failure Despite Reduced Arterial Baroreceptor Sensitivity, 1526
Effect of Chronic Myocardial Infarction on Vagal Cardiopulmonary Baroreflex, 396
Cardiopulmonary receptors
Relation Between Sympathetic Outflow and Vascular Resistance in the Calf During Perturbations in Central Venous Pressure: Evidence for Cardiopulmonary Afferent Regulation of Calf Vascular Resistance in Humans, 1710
Cardiovascular control
Thyrotropin-Releasing Hormone Given Intrathecally to the Rat Increases Arterial Pressure and Heart Rate, 859
Cardiovascular hemodynamics
Hemodynamics of the Stage 12 to Stage 29 Chick Embryo, 1665
Carnitine palmitoyltransferase
Effects of Inhibition of Fatty Acid Oxidation on Myocardial Kinetics of ^{11}C-Labeled Palmitate, 1787
Response of Isolated Working Hearts to Fatty Acids and Carnitine Palmitoyltransferase I Inhibition During Reduction of Coronary Flow in Acutely and Chronically Diabetic Rats, 378
Carotid sinus
A Central Mechanism of Acute Baroreflex Resetting in the Conscious Dog, 63
Determinants of Sensitization of Carotid Baroreceptors by Pulsatile Pressure in Dogs, 566
Catecholamines
Beneficial Effects of α_2-Adrenoceptor Activity on Ischemic Myocardium During Coronary Hypoperfusion in Dogs, 1632
Continuous Infusion of Tracer Norepinephrine May Miscalculate Unidirectional Nerve Uptake of Norepinephrine in Humans, 388
Differential Effect of Physical Exercise Routines on Ventricular Myosin and Peripheral Catecholamine Stores in Normotensive and Spontaneously Hypertensive Rats, 370
Multiple Types of Ca^{2+} Currents in Single Canine Purkinje Cells, 1735

CD11/CD18
Canine Neutrophil Activation by Cardiac Lymph Obtained During Reperfusion of Ischemic Myocardium, 1751
Cell migration
Effect of Platelet Factors on Migration of Cultured Bovine Aortic Endothelial and Smooth Muscle Cells, 1057
Central command
Effects of Partial Neuromuscular Blockade on Sympathetic Nerve Responses to Static Exercise in Humans, 468
Central nervous system
A Central Mechanism of Acute Baroreflex Resetting in the Conscious Dog, 63
Central Nervous System Mechanisms Involved in Inhibition of Renal Sympathetic Nerve Activity Induced by Arginine Vasopressin, 1390
Differential Cardiovascular Effects of Centrally Administered Vasopressin in Conscious Long Evans and Brattleboro Rats, 925
Cerebral arteries
Pressure Releases a Transferable Endothelial Contractile Factor in Cat Cerebral Arteries, 193
Cerebrovascular disease
A Plasmatic Factor May Cause Platelet Activation in Acute Ischemic Stroke, 1679
Chaos theory
Chaotic Activity in a Mathematical Model of the Vagally Driven Sinoatrial Node, 1350
Chemotaxis
Canine Neutrophil Activation by Cardiac Lymph Obtained During Reperfusion of Ischemic Myocardium, 1751
Chick embryo
Chronotropic Responses of Chick Atria to Field Stimulation After Various Neural Crest Ablations, 1547
Hemodynamics of the Stage 12 to Stage 29 Chick Embryo, 1665
Chronic cardiac failure
Ventriculoarterial Coupling in Normal and Failing Heart in Humans, 483
Chronic myocardial infarction
Effect of Chronic Myocardial Infarction on Vagal Cardiopulmonary Baroreflex, 396
Circumventricular organ
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417
Circus movement
Mechanisms of Termination of Reentrant Atrial Arrhythmias by Class I and Class III Antiarrhythmic Agents, 1565
Cirrhosis
Continuous Infusion of Tracer Norepinephrine May Miscalculate Unidirectional Nerve Uptake of Norepinephrine in Humans, 388
Clonidine
Beneficial Effects of α_2-Adrenoceptor Activity on Ischemic Myocardium During Coronary Hypoperfusion in Dogs, 1632
Cloning
Tissue- and Species-Specific Expression of Inhibitory Guanine Nucleotide–Binding Proteins: Cloning of a Full-Length Complementary DNA From Canine Heart, 1136
Cocaine
Direct Actions of Cocaine on Cardiac Cellular Electrical Activity, 185
Collagen
A Plasmatic Factor May Cause Platelet Activation in Acute Ischemic Stroke, 1679
Isoproterenol-Induced Myocardial Fibrosis in Relation to Myocyte Necrosis, 657
Morphometric Analyses of Rabbit Thoracic Aorta After Poststenotic Dilatation, 1774
Collagen cross-linking
Alterations in Collagen Cross-Linking Impair Myocardial Contractility in the Mouse Heart, 1657
Collagen fibers
Fibrosis-Induced Reduction of Endomyocardium in the Rat After Isoproterenol Treatment, 258
Complement activation
Cardiac Anaphylaxis: Complement Activation As an Amplification System, 847
Complementary DNA
Molecular Cloning and Expression of Chicken Cardiac Troponin C, 1241
Computer modeling
Cellular Uncoupling Can Unmask Dispersion of Action Potential Duration in Ventricular Myocardium: A Computer Modeling Study, 1426
Concealed reentry
Interaction of Inhomogeneities of Repolarization With Anisotropic Propagation in Dog Atria: A Mechanism for Both Preventing and Initiating Reentry, 1612
Conduction
Activation Patterns in Healed Experimental Myocardial Infarction, 1698
Cellular Uncoupling Can Unmask Dispersion of Action Potential Duration in Ventricular Myocardium: A Computer Modeling Study, 1426
Connexin43
Quantitative Analysis of Intercellular Connections by Immunohistochemistry of the Cardiac Gap Junction Protein Connexin43, 1450
Conscious dogs
A Central Mechanism of Acute Baroreflex Resetting in the Conscious Dog, 63
Contractile factor
Pressure Releases a Transferable Endothelial Contractile Factor in Cat Cerebral Arteries, 193
Contractile proteins
Immunological Identification of Five Troponin T Isoforms Reveals an Elaborate Maturational Troponin T Profile in Rabbit Myocardium, 1087
Contractility
Inhibition of Cardiac Vagal Effects by Neurally Released and Exogenous Neuropeptide Y, 1536
Coronary artery reperfusion
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607
Coronary blood flow
Abnormal Subendocardial Blood Flow in Pressure Overload Hypertrophy Is Associated With Pacing-Induced Subendocardial Dysfunction, 1555
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283
Subendomyocardial Exhaustion of Blood Flow Reserve and Increased Fibrosis in Conscious Dogs With Heart Failure, 971
Coronary circulation
Acetylcholine Causes Coronary Vasodilation in Dogs and Baboons, 1580
EDRF Increases Cyclic GMP in Platelets During Passage Through the Coronary Vascular Bed, 1798
Intermittent Coronary Sinus Occlusion After Coronary Arterial Ligation Results in Venous Retroperfusion, 695
The Role of α_1- and α_2-Adrenergic Receptors in Mediation of Coronary Vasoconstriction in Hypoperfused Ischemic Myocardium During Exercise, 1688
Coronary collateral flow
Effect of Atrial Natriuretic Peptide on Coronary Collateral Blood Flow, 1671
Coronary diameter
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Coronary flow
Coronary Angiogenesis During Long-term Hypertension and Left Ventricular Hypertrophy in Dogs, 352

Coronary Pressure-Flow Relations in Hypertensive Left Ventricular Hypertrophy: Comparison of Intact Autoregulation With Physiological and Pharmacological Vasodilation in the Dog, 224
Coronary hyperemia
Coronary Pressure-Flow Relations in Hypertensive Left Ventricular Hypertrophy: Comparison of Intact Autoregulation With Physiological and Pharmacological Vasodilation in the Dog, 224
Coronary microvascular resistance
Nonuniform Vasomotor Responses of the Coronary Microcirculation to Serotonin and Vasopressin, 343
Coronary occlusion
$F(ab')_2$ Fragments of Anti-Mo1 (904) Monoclonal Antibodies Do Not Prevent Myocardial Stunning, 1112
Coronary reperfusion
Quantification of Myocardial Infarct Size After Coronary Reperfusion by Serum Cardiac Myosin Light Chain II in Conscious Dogs, 684
Coronary reserve
Subendomyocardial Exhaustion of Blood Flow Reserve and Increased Fibrosis in Conscious Dogs With Heart Failure, 971
Coronary spasm
Intramural Hemorrhage and Endothelial Changes in Atherosclerotic Coronary Artery After Repetitive Episodes of Spasm in X-ray–Irradiated Hypercholesterolemic Pigs, 272
Coronary thrombolysis
Increased Thromboxane Biosynthesis During Coronary Thrombolysis: Evidence That Platelet Activation and Thromboxane A_2 Modulate the Response to Tissue-Type Plasminogen Activator In Vivo, 83
Coronary vascular resistance
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283
Coronary vasodilator reserve
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283
Coronary vessels
Coronary Angiogenesis During Long-term Hypertension and Left Ventricular Hypertrophy in Dogs, 352
Coxsackievirus B3
Absence of Effects of Cyclosporine on Myocardial Lymphocyte Subsets in Coxsackievirus B3 Myocarditis in the Aviremic Stage, 934
Creatine kinase
Quantification of Myocardial Infarct Size After Coronary Reperfusion by Serum Cardiac Myosin Light Chain II in Conscious Dogs, 684
Cross-linked actoS-1
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515
Cyclic AMP
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Cyclic AMP–dependent protein kinase
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Cyclic GMP
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508
Enkephalinase Inhibition Increases Plasma Atrial Natriuretic Peptide Levels, Glomerular Filtration Rate, and Urinary Sodium Excretion in Rats With Reduced Renal Mass, 640
Cyclic GMP kinase
Decreased Cardiac Concentration of cGMP Kinase in Hypertensive Animals: An Index for Cardiac Vascularization?, 1361
Cyclic nucleotide phosphodiesterase
Characterization and Pharmacological Relevance of High Affinity Binding Sites for [^{3}H]LY186126, a Cardiotonic Phosphodiesterase Inhibitor, in Canine Cardiac Membranes, 154
Cyclosporine
Absence of Effects of Cyclosporine on Myocardial Lymphocyte Subsets in Coxsackievirus B3 Myocarditis in the Aviremic Stage, 934
Cynomolgus monkeys
Vascular Responses to Leukocyte Products in Atherosclerotic Primates, 1078
Cytokines
Effects of Recombinant Human Tumor Necrosis Factor Alpha, Lymphotoxin, and *Escherichia coli* Lipopolysaccharide on Hemodynamics, Lung Microvascular Permeability, and Eicosanoid Synthesis in Anesthetized Sheep, 502
Cytoskeleton
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591

D

Delayed afterdepolarizations
Developmental Changes in the Electrophysiological Properties and the β-Adrenergic Receptor-Effector Complex in Atrial Fibers of the Canine Coronary Sinus, 325
Development
Developmental Changes in Guanine Nucleotide Regulatory Proteins in the Rat Myocardial α_1-Adrenergic Receptor Complex, 1763
Immunological Identification of Five Troponin T Isoforms Reveals an Elaborate Maturational Troponin T Profile in Rabbit Myocardium, 1087
Diabetes
Response of Isolated Working Hearts to Fatty Acids and Carnitine Palmitoyltransferase I Inhibition During Reduction of Coronary Flow in Acutely and Chronically Diabetic Rats, 378
Diastole
The Effect of Acute Alterations in Left Ventricular Afterload and β-Adrenergic Tone on Indices of Early Diastolic Filling Rate, 406
Dispersion of refractoriness
Cellular Uncoupling Can Unmask Dispersion of Action Potential Duration in Ventricular Myocardium: A Computer Modeling Study, 1426
DNA synthesis
Acute and Long-term Effects of Tissue Culture on Contractile Reactivity in Renal Arteries of the Rat, 1125
Dogs
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Nonhomogeneous Left Ventricular Regional Shortening During Acute Right Ventricular Pressure Overload, 43
Dot blotting
Tissue- and Species-Specific Expression of Inhibitory Guanine Nucleotide–Binding Proteins: Cloning of a Full-Length Complementary DNA From Canine Heart, 858
Tissue- and Species-Specific Expression of Inhibitory Guanine Nucleotide–Binding Proteins: Cloning of a Full-Length Complementary DNA From Canine Heart, 1136

E

Eccentric hypertrophy
Capillary Growth in Anemia-Induced Ventricular Wall Remodeling in the Rat Heart, 1182
Ectonucleotidases
Metabolism of Adenine Nucleotides in Human Blood, 531
Rabbit Polymorphonuclear Neutrophils Elicit Endothelium-Dependent Contraction in Vascular Smooth Muscle, 917
Efferent arteriole
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475

Efferent sympathetic stimulation
Modulation of Cardiac Autonomic Neurotransmission by Epicardial Superfusion: Effects of Hexamethonium and Tetrodotoxin, 1212
Efferent vagal stimulation
Modulation of Cardiac Autonomic Neurotransmission by Epicardial Superfusion: Effects of Hexamethonium and Tetrodotoxin, 1212
Eicosanoids
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220
Elastin
Morphometric Analyses of Rabbit Thoracic Aorta After Poststenotic Dilatation, 1774
Electrical activity
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Electrical excitability
Slow Recovery of Excitability and the Wenckebach Phenomenon in the Single Guinea Pig Ventricular Myocyte, 761
Electron paramagnetic resonance spectroscopy
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607
Electrophysiology
Activation Patterns in Healed Experimental Myocardial Infarction, 1698
Embryo weight
Hemodynamics of the Stage 12 to Stage 29 Chick Embryo, 1665
Endothelial cells
Effect of Platelet Factors on Migration of Cultured Bovine Aortic Endothelial and Smooth Muscle Cells, 1057
Endothelin
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
Endothelium
EDRF Increases Cyclic GMP in Platelets During Passage Through the Coronary Vascular Bed, 1798
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Metabolism of Adenine Nucleotides in Human Blood, 531
Pressure Releases a Transferable Endothelial Contractile Factor in Cat Cerebral Arteries, 193
Rabbit Polymorphonuclear Neutrophils Elicit Endothelium-Dependent Contraction in Vascular Smooth Muscle, 917
Endothelium-derived relaxing factor
Biological Actions and Properties of Endothelium-Derived Nitric Oxide Formed and Released From Artery and Vein, 1
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508
Mechanism of Action of EDRF on Pressurized Arteries: Effect on K^+ Conductance, 199
N-Acetylcysteine Potentiates Platelet Inhibition by Endothelium-Derived Relaxing Factor, 789
Natural Course of the Impairment of Endothelium-Dependent Relaxations After Balloon Endothelium Removal in Porcine Coronary Arteries: Possible Dysfunction of a Pertussis Toxin–Sensitive G Protein, 740
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283
Rabbit Polymorphonuclear Neutrophils Elicit Endothelium-Dependent Contraction in Vascular Smooth Muscle, 917
Endotoxin
Effects of Recombinant Human Tumor Necrosis Factor Alpha, Lymphotoxin, and *Escherichia coli* Lipopolysaccharide on Hemodynamics, Lung Microvascular Permeability, and Eicosanoid Synthesis in Anesthetized Sheep, 502
End-systolic pressure-volume relation
Effect of Left Ventricular Volume on Right Ventricular End-Systolic Pressure-Volume Relation: Resetting of Regional Preload in Right Ventricular Free Wall, 623
Epicardial activation mapping
Activation Patterns in Healed Experimental Myocardial Infarction, 1698
Ethrane
Volatile Anesthetics Block Intercellular Communication Between Neonatal Rat Myocardial Cells, 829
Ethylisopropylamiloride
Sodium-Lithium Exchange and Sodium-Proton Exchange Are Mediated by the Same Transport System in Sarcolemmal Vesicles From Bovine Superior Mesenteric Artery, 818
Excitability
Origin, Domain, and Dynamics of Rate-Induced Variations of Functional Refractory Period in Rabbit Atrioventricular Node, 164
Exercise
Differential Effect of Physical Exercise Routines on Ventricular Myosin and Peripheral Catecholamine Stores in Normotensive and Spontaneously Hypertensive Rats, 370
External mechanical work
The Linear Relation Between Oxygen Consumption and Pressure-Volume Area Can Be Reconciled With the Fenn Effect in Dog Left Ventricle, 1380
Extracellular acidosis
Contractile Shortening Response of Ventricular Cells to Extracellular Acidosis: Evidence for Two-Site Control of H^+-Ca^{2+} Interaction, 894
Extraceptor
Aminergic Histofluorescence and Contractile Responses to Transmural Electrical Field Stimulation and Norepinephrine of Human Middle Cerebral Arteries Obtained Promptly After Death, 316

F

Facilitation
Origin, Domain, and Dynamics of Rate-Induced Variations of Functional Refractory Period in Rabbit Atrioventricular Node, 164
Fatigue
Origin, Domain, and Dynamics of Rate-Induced Variations of Functional Refractory Period in Rabbit Atrioventricular Node, 164
Fatty acid–binding protein
Rabbit Heart Fatty Acid–Binding Protein: Isolation, Characterization, and Application of a Monoclonal Antibody, 981
Fatty acid metabolism
Effects of Inhibition of Fatty Acid Oxidation on Myocardial Kinetics of ^{11}C-Labeled Palmitate, 1787
Fatty acids
Metabolic Oxidation of Glucose During Early Myocardial Reperfusion, 1094
Response of Isolated Working Hearts to Fatty Acids and Carnitine Palmitoyltransferase I Inhibition During Reduction of Coronary Flow in Acutely and Chronically Diabetic Rats, 378
Fibroblasts
Arachidonate Metabolism in Cultured Fibroblasts Derived From Normal and Infarcted Canine Heart, 671
Isoproterenol-Induced Myocardial Fibrosis in Relation to Myocyte Necrosis, 657
Field stimulation
Chronotropic Responses of Chick Atria to Field Stimulation After Various Neural Crest Ablations, 1547
Finite strains
Constitutive Relations and Finite Deformations of Passive Cardiac Tissue II. Stress Analysis in the Left Ventricle, 805

Flow
The Behavior of Sonicated Albumin Microbubbles Within the Microcirculation: A Basis for Their Use During Myocardial Contrast Echocardiography, 458
Flow heterogeneity
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578
Fluid filtration coefficient
Effects of a Thromboxane A_2 Analogue and Prostacyclin on Lung Fluid Balance in Newborn Lambs, 1409
Fluorescence
The Behavior of Sonicated Albumin Microbubbles Within the Microcirculation: A Basis for Their Use During Myocardial Contrast Echocardiography, 458
Force-frequency relation
Protection of Human Left Ventricular Myocardium From Cutting Injury With 2,3-Butanedione Monoxime, 1441
Force-velocity curve
Shortening Velocity and Myosin and Myofibrillar ATPase Activity Related to Myosin Isoenzyme Composition During Postnatal Development in Rat Myocardium, 446
Forskolin
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Fractals
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578
Free radicals
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146
Freeze-fracture
Fate of Gap Junctions in Isolated Adult Mammalian Cardiomyocytes, 22
Fura-2
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115

G

G-protein
Characterization of A_1 Adenosine Receptors in Atrial and Ventricular Myocardium From Diseased Human Hearts, 1201
Developmental Changes in Guanine Nucleotide Regulatory Proteins in the Rat Myocardial α_1-Adrenergic Receptor Complex, 1763
Tissue- and Species-Specific Expression of Inhibitory Guanine Nucleotide–Binding Proteins: Cloning of a Full-Length Complementary DNA From Canine Heart, 1136
Gap junctions
Fate of Gap Junctions in Isolated Adult Mammalian Cardiomyocytes, 22
Quantitative Analysis of Intercellular Connections by Immunohistochemistry of the Cardiac Gap Junction Protein Connexin43, 1450
Volatile Anesthetics Block Intercellular Communication Between Neonatal Rat Myocardial Cells, 829
Gene expression
Molecular Cloning and Expression of Chicken Cardiac Troponin C, 1241
Ventricles as a Major Site of Atrial Natriuretic Factor Synthesis and Release in Cardiomyopathic Hamsters With Heart Failure, 71
General anesthetics
Inhibition of Na-Ca Exchange by General Anesthetics, 1021
Glomerular filtration rate
Renal Vasoconstriction by the Endothelial Cell–Derived Peptide Endothelin in Spontaneously Hypertensive Rats, 1370
Glucagon
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Glucose oxidation
Metabolic Oxidation of Glucose During Early Myocardial Reperfusion, 1094
Glyburide
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157
Glycolytic products
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045
Gracilis muscle
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Granulocyte
Attenuation of No-Reflow Phenomenon, Neutrophil Activation, and Reperfusion Injury in Intestinal Microcirculation by Topical Adenosine, 426
Growth hormone
Vascular Remodeling in the Growth Hormone Transgenic Mouse, 1233
GTP-binding protein
One Hour of Myocardial Ischemia Decreases the Activity of the Stimulatory Guanine-Nucleotide Regulatory Protein G_s, 1145
Guanine nucleotide regulatory proteins
Developmental Changes in the Electrophysiological Properties and the β-Adrenergic Receptor-Effector Complex in Atrial Fibers of the Canine Coronary Sinus, 325
Guarded-receptor hypothesis
Stereoselective Block of Cardiac Sodium Channels by RAC109 in Single Guinea Pig Ventricular Myocytes, 1306

H

^{3}[H]Batrachotoxinin benzoate
Amiodarone: Biochemical Evidence for Binding to a Receptor for Class I Drugs Associated With the Rat Cardiac Sodium Channel, 477
[^{3}H]LY186126
Characterization and Pharmacological Relevance of High Affinity Binding Sites for [^{3}H]LY186126, a Cardiotonic Phosphodiesterase Inhibitor, in Canine Cardiac Membranes, 154
H^+-Na^+ exchange
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045
Halothane
Volatile Anesthetics Block Intercellular Communication Between Neonatal Rat Myocardial Cells, 829
Hamster
Pharmacological Evidence for A_1 and A_2 Adenosine Receptors in the Skin Microcirculation, 176
Hamster cardiomyopathy
Alterations in Calcium Antagonist Receptors and Sodium-Calcium Exchange in Cardiomyopathic Hamster Tissues, 205
Heart
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
Changes in Phosphoinositide Turnover in Isolated Guinea Pig Hearts Stimulated With Isoproterenol, 989

Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475

Hypertrophy
Alterations in Calcium Antagonist Receptors and Sodium-Calcium Exchange in Cardiomyopathic Hamster Tissues, 205
Isoproterenol-Induced Myocardial Fibrosis in Relation to Myocyte Necrosis, 657
Subendomyocardial Exhaustion of Blood Flow Reserve and Increased Fibrosis in Conscious Dogs With Heart Failure, 971

Hypothermia
Degree and Time Sequence of Hypothermic Protection Against Experimental Ischemic Acute Renal Failure, 1263

Hypoxanthine
Degree and Time Sequence of Hypothermic Protection Against Experimental Ischemic Acute Renal Failure, 1263

Hypoxia
Direct Measurement of Changes in Intracellular Calcium Transients During Hypoxia, Ischemia, and Reperfusion of the Intact Mammalian Heart, 1029
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508
Metabolic Recovery of Acidotic Rabbit Cardiac Muscle: Effects of Low pH and Oxygen Shortage, 909

Hypoxic pulmonary vasoconstriction
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508

I

Ibuprofen
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220

Idazoxan
The Role of α_1- and α_2-Adrenergic Receptors in Mediation of Coronary Vasoconstriction in Hypoperfused Ischemic Myocardium During Exercise, 1688
Immunofluorescence
Isoproterenol-Induced Myocardial Fibrosis in Relation to Myocyte Necrosis, 657
Immunohistochemistry
Distribution of Conduction System Fibers in the Developing and Adult Rabbit Heart Revealed by an Antineurofilament Antibody, 360
Quantitative Analysis of Intercellular Connections by Immunohistochemistry of the Cardiac Gap Junction Protein Connexin43, 1450
IMP
IMP Production by ATP-Depleted Adult Rat Heart Cells: Effects of Glycolysis and α_1-Adrenergic Stimulation, 754
Indicator dilution
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
The Behavior of Sonicated Albumin Microbubbles Within the Microcirculation: A Basis for Their Use During Myocardial Contrast Echocardiography, 458
Indolidan (LY195115)
Characterization and Pharmacological Relevance of High Affinity Binding Sites for [^{3}H]LY186126, a Cardiotonic Phosphodiesterase Inhibitor, in Canine Cardiac Membranes, 154
Indomethacin
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220
Infarct size
Quantification of Myocardial Infarct Size After Coronary Reperfusion by Serum Cardiac Myosin Light Chain II in Conscious Dogs, 684
Inhalation anesthetics
Volatile Anesthetics Block Intercellular Communication Between Neonatal Rat Myocardial Cells, 829
Innervation
Aminergic Histofluorescence and Contractile Responses to Transmural Electrical Field Stimulation and Norepinephrine of Human Middle Cerebral Arteries Obtained Promptly After Death, 316
Inosine
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Inositol trisphosphates
Changes in Phosphoinositide Turnover in Isolated Guinea Pig Hearts Stimulated With Isoproterenol, 989
Inotropic interventions
Comparison of the Effects of Different Inotropic Interventions on Force, Velocity, and Power in Rabbit Myocardium, 1161
Input-output relations
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Insulin muscarinic agonist
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Intercalated disk
Fate of Gap Junctions in Isolated Adult Mammalian Cardiomyocytes, 22
Interleukin-2 receptor
Absence of Effects of Cyclosporine on Myocardial Lymphocyte Subsets in Coxsackievirus B3 Myocarditis in the Aviremic Stage, 934
Interlobular artery
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475
Intracellular Ca^{2+} transients
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Intracellular pH
Intracellular pH of Canine Subendocardial Purkinje Cells Surviving in 1-Day-Old Myocardial Infarcts, 554
Intramural hemorrhage
Intramural Hemorrhage and Endothelial Changes in Atherosclerotic Coronary Artery After Repetitive Episodes of Spasm in X-ray–Irradiated Hypercholesterolemic Pigs, 272
Intrathecal
Thyrotropin-Releasing Hormone Given Intrathecally to the Rat Increases Arterial Pressure and Heart Rate, 859
Intrathoracic pressure
Air Trapping in the Lungs During Cardiopulmonary Resuscitation in Dogs: A Mechanism for Generating Changes in Intrathoracic Pressure, 946
Intravital microscope
Comparison of the Effects of Increased Myocardial Oxygen Consumption and Adenosine on the Coronary Microvascular Resistance, 1296
Inward rectifier K^+ current
Amantadine-Induced Afterpotentials and Automaticity in Guinea Pig Ventricular Myocytes, 880
2-Iododesmethylimipramine
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578
Ion channel
Single-Channel Recordings From Human Cardiac Sarcoplasmic Reticulum, 1445
Ischemia
Alterations in Cardiac Sarcoplasmic Reticulum Calcium Transport in the Postischemic "Stunned" Myocardium, 526
Degree and Time Sequence of Hypothermic Protection Against Experimental Ischemic Acute Renal Failure, 1263
Differential Effect of Global Ischemia on the Ryanodine-Sensitive and Ryanodine-Insensitive Calcium Uptake of Cardiac Sarcoplasmic Reticulum, 1400
Direct Measurement of Changes in Intracellular Calcium Transients During Hypoxia, Ischemia, and Reperfusion of the Intact Mammalian Heart, 1029
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591
One Hour of Myocardial Ischemia Decreases the Activity of the Stimulatory Guanine-Nucleotide Regulatory Protein G_s, 1145
Ischemic injury
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045
Isolated arterial myocytes
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Isolated heart
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Isolated heart preparation
Comparison of the Myocardial Uptake of a Technetium-Labeled Isonitrile Analogue and Thallium, 632
Isolated myocyte
Fate of Gap Junctions in Isolated Adult Mammalian Cardiomyocytes, 22
Isolated perfused lungs
Effects of a Thromboxane A_2 Analogue and Prostacyclin on Lung Fluid Balance in Newborn Lambs, 1409
Isomyosins
Shortening Velocity and Myosin and Myofibrillar ATPase Activity Related to Myosin Isoenzyme Composition During Postnatal Development in Rat Myocardium, 446

Isoproterenol
Changes in Phosphoinositide Turnover in Isolated Guinea Pig Hearts Stimulated With Isoproterenol, 989
Comparison of the Effects of Different Inotropic Interventions on Force, Velocity, and Power in Rabbit Myocardium, 1161
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066

J

Jejunum
Attenuation of No-Reflow Phenomenon, Neutrophil Activation, and Reperfusion Injury in Intestinal Microcirculation by Topical Adenosine, 426

K

K^+ channel
Electrophysiological Mechanisms of Minoxidil Sulfate–Induced Vasodilation of Rabbit Portal Vein, 1102
K^+conductance
Mechanism of Action of EDRF on Pressurized Arteries: Effect on K^+ Conductance, 199

L

Langendorff preparation
Ventricles as a Major Site of Atrial Natriuretic Factor Synthesis and Release in Cardiomyopathic Hamsters With Heart Failure, 71
Laser Doppler velocimeter
Analysis of the Characteristics of the Flow Velocity Waveforms in Left Atrial Small Arteries and Veins in the Dog, 1172
Left atrial artery and vein
Analysis of the Characteristics of the Flow Velocity Waveforms in Left Atrial Small Arteries and Veins in the Dog, 1172
Left ventricle
Differences in Load Dependence of Relaxation Between the Left and Right Ventricular Myocardium as a Function of Age in Rats, 1499
Left ventricular relaxation
The Effect of Acute Alterations in Left Ventricular Afterload and β-Adrenergic Tone on Indices of Early Diastolic Filling Rate, 406
Leukocyte activation
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220
Leukocytes
Metabolism of Adenine Nucleotides in Human Blood, 531
Vascular Responses to Leukocyte Products in Atherosclerotic Primates, 1078
Leukotriene D_4
Vascular Responses to Leukocyte Products in Atherosclerotic Primates, 1078
Lidocaine
Blockade of Cardiac Sodium Channels by Lidocaine: Single-Channel Analysis, 1247
Blockade of Rabbit Atrial Sodium Channels by Lidocaine: Characterization of Continuous and Frequency-Dependent Blocking, 723
Liver
Handling of Tracer Bicarbonate by the Liver: The Relative Impermeability of Hepatocyte Cell Membranes to the Ionic Species, 1646
Load
Differences in Load Dependence of Relaxation Between the Left and Right Ventricular Myocardium as a Function of Age in Rats, 1499
Local anesthetics
Stereoselective Block of Cardiac Sodium Channels by RAC109 in Single Guinea Pig Ventricular Myocytes, 1306
Lung
Adenosine Produces Pulmonary Vasoconstriction in Sheep: Evidence for Thromboxane A_2/Prostaglandin Endoperoxide– Receptor Activation, 1516
Lymphocyte subsets
Absence of Effects of Cyclosporine on Myocardial Lymphocyte Subsets in Coxsackievirus B3 Myocarditis in the Aviremic Stage, 934

Pressure Releases a Transferable Endothelial Contractile Factor in Cat Cerebral Arteries, 193
Metoprolol
Significance of Myocardial α- and β-Adrenoceptors in Catecholamine-Induced Cardiac Hypertrophy, 1417
Microbubbles
The Behavior of Sonicated Albumin Microbubbles Within the Microcirculation: A Basis for Their Use During Myocardial Contrast Echocardiography, 458
Microneurography
Effects of Partial Neuromuscular Blockade on Sympathetic Nerve Responses to Static Exercise in Humans, 468
Microspheres
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578
Monensin
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045
Monoclonal antimyosin
Isoproterenol-Induced Myocardial Fibrosis in Relation to Myocyte Necrosis, 657
Monoexponential time constant
Systolic Direct Ventricular Interaction Affects Left Ventricular Contraction and Relaxation in the Intact Dog Circulation, 307
Monokines
Effects of Recombinant Human Tumor Necrosis Factor Alpha, Lymphotoxin, and *Escherichia coli* Lipopolysaccharide on Hemodynamics, Lung Microvascular Permeability, and Eicosanoid Synthesis in Anesthetized Sheep, 502

Morphometry
Capillary Growth in Anemia-Induced Ventricular Wall Remodeling in the Rat Heart, 1182
Coronary Angiogenesis During Long-term Hypertension and Left Ventricular Hypertrophy in Dogs, 352
Mouse
Alterations in Collagen Cross-Linking Impair Myocardial Contractility in the Mouse Heart, 1657
Myocardial atrophy
Fibrosis-Induced Reduction of Endomyocardium in the Rat After Isoproterenol Treatment, 258
Myocardial blood flow
$F(ab')_2$ Fragments of Anti-Mo1 (904) Monoclonal Antibodies Do Not Prevent Myocardial Stunning, 1112
Nonuniform Vasomotor Responses of the Coronary Microcirculation to Serotonin and Vasopressin, 343
Myocardial contraction
Nonhomogeneous Left Ventricular Regional Shortening During Acute Right Ventricular Pressure Overload, 43
Myocardial dysfunction
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607
Myocardial fibrosis
Fibrosis-Induced Reduction of Endomyocardium in the Rat After Isoproterenol Treatment, 258
Subendomyocardial Exhaustion of Blood Flow Reserve and Increased Fibrosis in Conscious Dogs With Heart Failure, 971
Myocardial hypertrophy
Fibrosis-Induced Reduction of Endomyocardium in the Rat After Isoproterenol Treatment, 258
Myocardial infarction
Arachidonate Metabolism in Cultured Fibroblasts Derived From Normal and Infarcted Canine Heart, 671
Electrophysiology and Ultrastructure of Canine Subendocardial Purkinje Cells Isolated From Control and 24-Hour Infarcted Hearts, 955
f Met-Leu-Phe Receptor Expression by an Interstitial Cell in Rabbit Right Atrium Following Left Ventricular Myocardial Infarction, 215
Intracellular pH of Canine Subendocardial Purkinje Cells Surviving in 1-Day-Old Myocardial Infarcts, 554
Myocardial ischemia
Beneficial Effects of α_2-Adrenoceptor Activity on Ischemic Myocardium During Coronary Hypoperfusion in Dogs, 1632
Canine Neutrophil Activation by Cardiac Lymph Obtained During Reperfusion of Ischemic Myocardium, 1751
Rabbit Heart Fatty Acid–Binding Protein: Isolation, Characterization, and Application of a Monoclonal Antibody, 981
The Role of α_1- and α_2-Adrenergic Receptors in Mediation of Coronary Vasoconstriction in Hypoperfused Ischemic Myocardium During Exercise, 1688
Myocardial metabolism
Rabbit Heart Fatty Acid–Binding Protein: Isolation, Characterization, and Application of a Monoclonal Antibody, 981
Reduction of Lipid Peroxidation in Reperfused Isolated Rabbit Hearts by Diltiazem, 838
Myocardial oxygen consumption
Acetylcholine Causes Coronary Vasodilation in Dogs and Baboons, 1580
Myocardial perfusion
Comparison of the Effects of Increased Myocardial Oxygen Consumption and Adenosine on the Coronary Microvascular Resistance, 1296
Myocardial reperfusion
Metabolic Oxidation of Glucose During Early Myocardial Reperfusion, 1094
Myocardial stiffness
Fibrosis-Induced Reduction of Endomyocardium in the Rat After Isoproterenol Treatment, 258
Myocarditis
Absence of Effects of Cyclosporine on Myocardial Lymphocyte Subsets in Coxsackievirus B3 Myocarditis in the Aviremic Stage, 934
Myocardium
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Constitutive Relations and Finite Deformations of Passive Cardiac Tissue II. Stress Analysis in the Left Ventricle, 805
Developmental Changes in Guanine Nucleotide Regulatory Proteins in the Rat Myocardial α_1-Adrenergic Receptor Complex, 1763
Myocardial Stretch Stimulates Phosphatidylinositol Turnover, 494
Shortening Velocity and Myosin and Myofibrillar ATPase Activity Related to Myosin Isoenzyme Composition During Postnatal Development in Rat Myocardium, 446
Myofibrillar ATPase
Shortening Velocity and Myosin and Myofibrillar ATPase Activity Related to Myosin Isoenzyme Composition During Postnatal Development in Rat Myocardium, 446
Myofilaments
Immunological Identification of Five Troponin T Isoforms Reveals an Elaborate Maturational Troponin T Profile in Rabbit Myocardium, 1087
Myosin
Differential Effect of Physical Exercise Routines on Ventricular Myosin and Peripheral Catecholamine Stores in Normotensive and Spontaneously Hypertensive Rats, 370
Myothermal measurements
Protection of Human Left Ventricular Myocardium From Cutting Injury With 2,3-Butanedione Monoxime, 1441
Myothermic technique
Metabolic Recovery of Acidotic Rabbit Cardiac Muscle: Effects of Low pH and Oxygen Shortage, 909

N

***N*-(2-Mercaptopropionyl)-glycine**
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607
***N*-Formylmethionyl-leucyl-phenylalanine**
f Met-Leu-Phe Receptor Expression by an Interstitial Cell in Rabbit Right Atrium Following Left Ventricular Myocardial Infarction, 215
Na-Ca exchange
Inhibition of Na-Ca Exchange by General Anesthetics, 1021
Relaxation of Rabbit Ventricular Muscle by Na-Ca Exchange and Sarcoplasmic Reticulum Calcium Pump: Ryanodine and Voltage Sensitivity, 334
Na^+,K^+-ATPase inhibitor
Contribution of the Baroreflex Afferent Nerves to the Production of Vasoconstricted Hypertension in Volume-Expanded Dogs, 1467
Naloxone hydrochloride
Opiate Receptor Antagonism in Right-Sided Congestive Heart Failure: Naloxone Exerts Salutary Hemodynamic Effects Through Its Action on the Central Nervous System, 103
Naloxone methobromide
Opiate Receptor Antagonism in Right-Sided Congestive Heart Failure: Naloxone Exerts Salutary Hemodynamic Effects Through Its Action on the Central Nervous System, 103
Natriuresis
Enkephalinase Inhibition Increases Plasma Atrial Natriuretic Peptide Levels, Glomerular Filtration Rate, and Urinary Sodium Excretion in Rats With Reduced Renal Mass, 640
Neural crest
Chronotropic Responses of Chick Atria to Field Stimulation After Various Neural Crest Ablations, 1547
Neurofilament
Distribution of Conduction System Fibers in the Developing and Adult Rabbit Heart Revealed by an Antineurofilament Antibody, 360

Neurogenic vasodilation
A Novel Neurogenic Vasodilator Mechanism in Bovine Mesenteric Artery, 903
Neuronal rerelease
Continuous Infusion of Tracer Norepinephrine May Miscalculate Unidirectional Nerve Uptake of Norepinephrine in Humans, 388
Neuropeptide Y
Inhibition of Cardiac Vagal Effects by Neurally Released and Exogenous Neuropeptide Y, 1536
Neutrophil
Canine Neutrophil Activation by Cardiac Lymph Obtained During Reperfusion of Ischemic Myocardium, 1751
Neutrophil function
$F(ab')_2$ Fragments of Anti-Mo1 (904) Monoclonal Antibodies Do Not Prevent Myocardial Stunning, 1112
Newborn cellular properties
Multiple Regional Differences in Cellular Properties That Regulate Repolarization and Contraction in the Right Atrium of Adult and Newborn Dogs, 1594
Nitrates
N-Acetylcysteine Potentiates Platelet Inhibition by Endothelium-Derived Relaxing Factor, 789
Nitric oxide
Biological Actions and Properties of Endothelium-Derived Nitric Oxide Formed and Released From Artery and Vein, 1
N-Acetylcysteine Potentiates Platelet Inhibition by Endothelium-Derived Relaxing Factor, 789
Nitroglycerin
Effect of Atrial Natriuretic Peptide on Coronary Collateral Blood Flow, 1671
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283
Synergistic Disaggregation of Platelets by Tissue-Type Plasminogen Activator, Prostaglandin E_1, and Nitroglycerin, 796
Nonsteady state
Continuous Infusion of Tracer Norepinephrine May Miscalculate Unidirectional Nerve Uptake of Norepinephrine in Humans, 388
Norepinephrine
Aminergic Histofluorescence and Contractile Responses to Transmural Electrical Field Stimulation and Norepinephrine of Human Middle Cerebral Arteries Obtained Promptly After Death, 316
Continuous Infusion of Tracer Norepinephrine May Miscalculate Unidirectional Nerve Uptake of Norepinephrine in Humans, 388
Electrophysiological Mechanisms of Minoxidil Sulfate–Induced Vasodilation of Rabbit Portal Vein, 1102
Significance of Myocardial α- and β-Adrenoceptors in Catecholamine-Induced Cardiac Hypertrophy, 1417
Normoxic canine myocardium
Effects of Inhibition of Fatty Acid Oxidation on Myocardial Kinetics of ^{11}C-Labeled Palmitate, 1787
Nucleotide sequence
Tissue- and Species-Specific Expression of Inhibitory Guanine Nucleotide–Binding Proteins: Cloning of a Full-Length Complementary DNA From Canine Heart, 1136
Nucleus tractus solitarii
Central Nervous System Mechanisms Involved in Inhibition of Renal Sympathetic Nerve Activity Induced by Arginine Vasopressin, 1390

O

Opiate receptors
Opiate Receptor Antagonism in Right-Sided Congestive Heart Failure: Naloxone Exerts Salutary Hemodynamic Effects Through Its Action on the Central Nervous System, 103
Osmotic reflection coefficient
Effects of a Thromboxane A_2 Analogue and Prostacyclin on Lung Fluid Balance in Newborn Lambs, 1409
Outward current at plateau level
Amantadine-Induced Afterpotentials and Automaticity in Guinea Pig Ventricular Myocytes, 880
Oxfenicine
Metabolic Oxidation of Glucose During Early Myocardial Reperfusion, 1094
Oxygen
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146
Oxygen-centered free radicals
Reduction of Lipid Peroxidation in Reperfused Isolated Rabbit Hearts by Diltiazem, 838
Oxygen free radicals
Degree and Time Sequence of Hypothermic Protection Against Experimental Ischemic Acute Renal Failure, 1263
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607

P

Papillary muscle
Alterations in Collagen Cross-Linking Impair Myocardial Contractility in the Mouse Heart, 1657
Comparison of the Effects of Different Inotropic Interventions on Force, Velocity, and Power in Rabbit Myocardium, 1161
Differences in Load Dependence of Relaxation Between the Left and Right Ventricular Myocardium as a Function of Age in Rats, 1499
Direct Actions of Cocaine on Cardiac Cellular Electrical Activity, 185
Metabolic Recovery of Acidotic Rabbit Cardiac Muscle: Effects of Low pH and Oxygen Shortage, 909
Parasympathetic
Inhibition of Cardiac Vagal Effects by Neurally Released and Exogenous Neuropeptide Y, 1536
Mathematical Model of the Changes in Heart Rate Elicited by Vagal Stimulation, 1330
Parasympathetic nervous system
Regional Distribution of the Molecular Forms of Acetylcholinesterase in Adult Rat Heart, 55
Passive membrane properties
Influence of Rate-Dependent Cellular Uncoupling on Conduction Change During Simulated Ischemia in Guinea Pig Papillary Muscles: Effect of Verapamil, 95
Pericardium
Nonhomogeneous Left Ventricular Regional Shortening During Acute Right Ventricular Pressure Overload, 43
Peripheral circulation
Vascular Responses to Leukocyte Products in Atherosclerotic Primates, 1078
Pertussis toxin
Developmental Changes in Guanine Nucleotide Regulatory Proteins in the Rat Myocardial α_1-Adrenergic Receptor Complex, 1763
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Natural Course of the Impairment of Endothelium-Dependent Relaxations After Balloon Endothelium Removal in Porcine Coronary Arteries: Possible Dysfunction of a Pertussis Toxin–Sensitive G Protein, 740
Phalloidin
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591
Phorbol ester
Angiotensin II Modulates Cardiac Na^+ Channels in Neonatal Rat, 1804
Phosphatidylinositol
Myocardial Stretch Stimulates Phosphatidylinositol Turnover, 494
Phosphodiesterase
Characterization and Pharmacological Relevance of High Affinity Binding Sites for [^{3}H]LY186126, a Cardiotonic

Phosphodiesterase Inhibitor, in Canine Cardiac Membranes, 154
Phosphoinositides
Changes in Phosphoinositide Turnover in Isolated Guinea Pig Hearts Stimulated With Isoproterenol, 989
Phospholipase C
Changes in Phosphoinositide Turnover in Isolated Guinea Pig Hearts Stimulated With Isoproterenol, 989
Phosphoramidon
Enkephalinase Inhibition Increases Plasma Atrial Natriuretic Peptide Levels, Glomerular Filtration Rate, and Urinary Sodium Excretion in Rats With Reduced Renal Mass, 640
Phosphorylation
Changes in Phosphoinositide Turnover in Isolated Guinea Pig Hearts Stimulated With Isoproterenol, 989
Photosensitization
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146
Pinacidil
Enhancement of Potassium-Sensitive Current in Heart Cells by Pinacidil: Evidence for Modulation of the ATP-Sensitive Potassium Channel, 436
Plasma membrane
Fate of Gap Junctions in Isolated Adult Mammalian Cardiomyocytes, 22
Plasma renin concentration
Atrial Natriuretic Factor–Specific Antibody As a Tool for Physiological Studies: Evidence for Role of Atrial Natriuretic Factor in Aldosterone and Renal Electrolyte Regulation, 1324
Platelet activating factor
A Plasmatic Factor May Cause Platelet Activation in Acute Ischemic Stroke, 1679
Platelet activation
Increased Thromboxane Biosynthesis During Coronary Thrombolysis: Evidence That Platelet Activation and Thromboxane A_2 Modulate the Response to Tissue-Type Plasminogen Activator In Vivo, 83
Platelet adhesion
EDRF Increases Cyclic GMP in Platelets During Passage Through the Coronary Vascular Bed, 1798
Platelet aggregation
EDRF Increases Cyclic GMP in Platelets During Passage Through the Coronary Vascular Bed, 1798
Platelet factors
Effect of Platelet Factors on Migration of Cultured Bovine Aortic Endothelial and Smooth Muscle Cells, 1057
Platelets
A Plasmatic Factor May Cause Platelet Activation in Acute Ischemic Stroke, 1679
N-Acetylcysteine Potentiates Platelet Inhibition by Endothelium-Derived Relaxing Factor, 789
Synergistic Disaggregation of Platelets by Tissue-Type Plasminogen Activator, Prostaglandin E_1, and Nitroglycerin, 796
Polymorphonuclear leukocyte
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220
Polymorphonuclear neutrophils
Rabbit Polymorphonuclear Neutrophils Elicit Endothelium-Dependent Contraction in Vascular Smooth Muscle, 917
Polysorbate 80
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157
Portal vein
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
Positron emission tomography
Effects of Inhibition of Fatty Acid Oxidation on Myocardial Kinetics of ^{11}C-Labeled Palmitate, 1787
Postextrasystolic potentiation
Effects of Ryanodine on Contractile Performance of Intact Length-Clamped Papillary Muscle, 1270
Postganglionic axons
Modulation of Cardiac Autonomic Neurotransmission by Epicardial Superfusion: Effects of Hexamethonium and Tetrodotoxin, 1212
Potassium channels
Enhancement of Potassium-Sensitive Current in Heart Cells by Pinacidil: Evidence for Modulation of the ATP-Sensitive Potassium Channel, 436
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157
Ionic Basis and Analytical Solution of the Wenckebach Phenomenon in Guinea Pig Ventricular Myocytes, 775
Outward Potassium Currents in Freshly Isolated Smooth Muscle Cell of Dog Coronary Arteries, 1718
Potential energy
The Linear Relation Between Oxygen Consumption and Pressure-Volume Area Can Be Reconciled With the Fenn Effect in Dog Left Ventricle, 1380
Prazosin
The Role of α_1- and α_2-Adrenergic Receptors in Mediation of Coronary Vasoconstriction in Hypoperfused Ischemic Myocardium During Exercise, 1688
Significance of Myocardial α- and β-Adrenoceptors in Catecholamine-Induced Cardiac Hypertrophy, 1417
Preload
Effects of Increasing Afterload on Left Ventricular Output in Fetal Lambs, 127
Pressure-induced vasoconstriction
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475
Pressure-overload hypertrophy
Abnormal Subendocardial Blood Flow in Pressure Overload Hypertrophy Is Associated With Pacing-Induced Subendocardial Dysfunction, 1555
Pre–steady-state kinetics
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515
Procainamide
Rate-Dependent Changes in Intraventricular Conduction Produced by Procainamide in Anesthetized Dogs: A Quantitative Analysis Based on the Relation Between Phase 0 Inward Current and Conduction Velocity, 1485
Programmed electrical stimulation
Electrophysiological Determinants of Antidromic Reentry Induced During Atrial Extrastimulation: Insights From a Pacing Model of Wolff-Parkinson-White Syndrome, 295
Propranolol
Inhibition of Sarcolemmal Carbon-Centered Free Radical Formation by Propranolol, 1151
Prostacyclin
Attenuation of No-Reflow Phenomenon, Neutrophil Activation, and Reperfusion Injury in Intestinal Microcirculation by Topical Adenosine, 426
Effects of Recombinant Human Tumor Necrosis Factor Alpha, Lymphotoxin, and *Escherichia coli* Lipopolysaccharide on Hemodynamics, Lung Microvascular Permeability, and Eicosanoid Synthesis in Anesthetized Sheep, 502
Prostaglandin E_1
Synergistic Disaggregation of Platelets by Tissue-Type Plasminogen Activator, Prostaglandin E_1, and Nitroglycerin, 796
Prostaglandin E_2
Prostaglandin E Receptors in Cardiac Sarcolemma: Identification and Coupling to Adenylate Cyclase, 538
Vascular Responses to Leukocyte Products in Atherosclerotic Primates, 1078
Prostaglandins
Adenosine Produces Pulmonary Vasoconstriction in Sheep: Evidence for Thromboxane A_2/Prostaglandin Endoperoxide– Receptor Activation, 1516

Arachidonate Metabolism in Cultured Fibroblasts Derived From Normal and Infarcted Canine Heart, 671

Protein kinase C
Angiotensin II Modulates Cardiac Na^+ Channels in Neonatal Rat, 1804

Protein synthesis
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647

Pulmonary artery
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508

Pulmonary artery constriction
Systolic Direct Ventricular Interaction Affects Left Ventricular Contraction and Relaxation in the Intact Dog Circulation, 307

Pulmonary circulation
Adenosine Produces Pulmonary Vasoconstriction in Sheep: Evidence for Thromboxane A_2/Prostaglandin Endoperoxide– Receptor Activation, 1516
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508

Pulmonary hypertension
Nonhomogeneous Left Ventricular Regional Shortening During Acute Right Ventricular Pressure Overload, 43

Pulmonary microvascular permeability
Effects of a Thromboxane A_2 Analogue and Prostacyclin on Lung Fluid Balance in Newborn Lambs, 1409

Pulsatility
Determinants of Sensitization of Carotid Baroreceptors by Pulsatile Pressure in Dogs, 566

Purkinje cells
Multiple Types of Ca^{2+} Currents in Single Canine Purkinje Cells, 1735

Purkinje myocytes
Electrophysiology and Ultrastructure of Canine Subendocardial Purkinje Cells Isolated From Control and 24-Hour Infarcted Hearts, 955

Q

Quinidine
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157

R

Rabbits
Central Nervous System Mechanisms Involved in Inhibition of Renal Sympathetic Nerve Activity Induced by Arginine Vasopressin, 1390
Direct Actions of Cocaine on Cardiac Cellular Electrical Activity, 185
EDRF Increases Cyclic GMP in Platelets During Passage Through the Coronary Vascular Bed, 1798
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578
Metabolic Recovery of Acidotic Rabbit Cardiac Muscle: Effects of Low pH and Oxygen Shortage, 909

RAC109
Stereoselective Block of Cardiac Sodium Channels by RAC109 in Single Guinea Pig Ventricular Myocytes, 1306

Radioactive microspheres
Nonuniform Vasomotor Responses of the Coronary Microcirculation to Serotonin and Vasopressin, 343

Radioimmunoassay
Quantification of Myocardial Infarct Size After Coronary Reperfusion by Serum Cardiac Myosin Light Chain II in Conscious Dogs, 684

Radiolabeled microsphere
Comparison of the Effects of Increased Myocardial Oxygen Consumption and Adenosine on the Coronary Microvascular Resistance, 1296

Rapid pacing
Comparison of the Effects of Increased Myocardial Oxygen Consumption and Adenosine on the Coronary Microvascular Resistance, 1296

Rat
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
IMP Production by ATP-Depleted Adult Rat Heart Cells: Effects of Glycolysis and α_1-Adrenergic Stimulation, 754
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417
Regional Distribution of the Molecular Forms of Acetylcholinesterase in Adult Rat Heart, 55

Receptors
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066

Red blood cell Na^+-Li^+ countertransport
Sodium-Lithium Exchange and Sodium-Proton Exchange Are Mediated by the Same Transport System in Sarcolemmal Vesicles From Bovine Superior Mesenteric Artery, 818

Refractory curve
Origin, Domain, and Dynamics of Rate-Induced Variations of Functional Refractory Period in Rabbit Atrioventricular Node, 164

Refractory period
Modulation of Cardiac Autonomic Neurotransmission by Epicardial Superfusion: Effects of Hexamethonium and Tetrodotoxin, 1212

Regenerated endothelium
Natural Course of the Impairment of Endothelium-Dependent Relaxations After Balloon Endothelium Removal in Porcine Coronary Arteries: Possible Dysfunction of a Pertussis Toxin–Sensitive G Protein, 740

Regional myocardial blood flow
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578

Relative dispersion coefficient of variation
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578

Relaxation
Differences in Load Dependence of Relaxation Between the Left and Right Ventricular Myocardium as a Function of Age in Rats, 1499
Relaxation of Rabbit Ventricular Muscle by Na-Ca Exchange and Sarcoplasmic Reticulum Calcium Pump: Ryanodine and Voltage Sensitivity, 334

Renal blood flow
Renal Vasoconstriction by the Endothelial Cell–Derived Peptide Endothelin in Spontaneously Hypertensive Rats, 1370

Renal hypertension
Effects of Chronic Hypertension and Its Reversal on Arteries and Arterioles, 869

Renal microcirculation
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475

Renal sympathetic nerve
Central Nervous System Mechanisms Involved in Inhibition of Renal Sympathetic Nerve Activity Induced by Arginine Vasopressin, 1390

Renal vascular resistance
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475
Renal Vasoconstriction by the Endothelial Cell–Derived Peptide Endothelin in Spontaneously Hypertensive Rats, 1370

Reperfusion
Degree and Time Sequence of Hypothermic Protection Against Experimental Ischemic Acute Renal Failure, 1263
Differential Effect of Global Ischemia on the Ryanodine-Sensitive and Ryanodine-Insensitive Calcium Uptake of Cardiac Sarcoplasmic Reticulum, 1400

Direct Measurement of Changes in Intracellular Calcium Transients During Hypoxia, Ischemia, and Reperfusion of the Intact Mammalian Heart, 1029
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591

Reperfusion injury
Alterations in Cardiac Sarcoplasmic Reticulum Calcium Transport in the Postischemic "Stunned" Myocardium, 526
$F(ab')_2$ Fragments of Anti-Mo1 (904) Monoclonal Antibodies Do Not Prevent Myocardial Stunning, 1112
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045

Repolarization discontinuities
Interaction of Inhomogeneities of Repolarization With Anisotropic Propagation in Dog Atria: A Mechanism for Both Preventing and Initiating Reentry, 1612

Repolarization inhomogeneities
Interaction of Inhomogeneities of Repolarization With Anisotropic Propagation in Dog Atria: A Mechanism for Both Preventing and Initiating Reentry, 1612

Resetting
A Central Mechanism of Acute Baroreflex Resetting in the Conscious Dog, 63

Residual strain
Change of Residual Strains in Arteries due to Hypertrophy Caused by Aortic Constriction, 1340

Restitution
Effects of Ryanodine on Contractile Performance of Intact Length-Clamped Papillary Muscle, 1270

Rete mirabile
Effect of Phalloidin on Structure and Permeability of Rete Capillaries in the Normal and Hypoxic State, 591

Right atrium
f Met-Leu-Phe Receptor Expression by an Interstitial Cell in Rabbit Right Atrium Following Left Ventricular Myocardial Infarction, 215

Right ventricle
Differences in Load Dependence of Relaxation Between the Left and Right Ventricular Myocardium as a Function of Age in Rats, 1499
Effect of Left Ventricular Volume on Right Ventricular End-Systolic Pressure-Volume Relation: Resetting of Regional Preload in Right Ventricular Free Wall, 623

Rose bengal
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146

Ryanodine
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Differential Effect of Global Ischemia on the Ryanodine-Sensitive and Ryanodine-Insensitive Calcium Uptake of Cardiac Sarcoplasmic Reticulum, 1400
Effects of Ryanodine on Contractile Performance of Intact Length-Clamped Papillary Muscle, 1270
Relaxation of Rabbit Ventricular Muscle by Na-Ca Exchange and Sarcoplasmic Reticulum Calcium Pump: Ryanodine and Voltage Sensitivity, 334

S

Sarcolemma
Fate of Gap Junctions in Isolated Adult Mammalian Cardiomyocytes, 22

Sarcolemmal lipid peroxidation
Inhibition of Sarcolemmal Carbon-Centered Free Radical Formation by Propranolol, 1151

Sarcolemmal vesicles
Inhibition of Na-Ca Exchange by General Anesthetics, 1021

Sarcolemma receptors
Prostaglandin E Receptors in Cardiac Sarcolemma: Identification and Coupling to Adenylate Cyclase, 538

Sarcoplasmic reticulum
Alterations in Cardiac Sarcoplasmic Reticulum Calcium Transport in the Postischemic "Stunned" Myocardium, 526
Ca^{2+} Uptake by Cardiac Sarcoplasmic Reticulum From Patients With Idiopathic Dilated Cardiomyopathy, 1141
Characterization and Pharmacological Relevance of High Affinity Binding Sites for [^{3}H]LY186126, a Cardiotonic Phosphodiesterase Inhibitor, in Canine Cardiac Membranes, 154
Differential Effect of Global Ischemia on the Ryanodine-Sensitive and Ryanodine-Insensitive Calcium Uptake of Cardiac Sarcoplasmic Reticulum, 1400
Effects of Ryanodine on Contractile Performance of Intact Length-Clamped Papillary Muscle, 1270
Relaxation of Rabbit Ventricular Muscle by Na-Ca Exchange and Sarcoplasmic Reticulum Calcium Pump: Ryanodine and Voltage Sensitivity, 334
Single-Channel Recordings From Human Cardiac Sarcoplasmic Reticulum, 1445

Scorpion α-toxin
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265

Segment length
Nonhomogeneous Left Ventricular Regional Shortening During Acute Right Ventricular Pressure Overload, 43

Serotonin
Natural Course of the Impairment of Endothelium-Dependent Relaxations After Balloon Endothelium Removal in Porcine Coronary Arteries: Possible Dysfunction of a Pertussis Toxin–Sensitive G Protein, 740

Sheep
Adenosine Produces Pulmonary Vasoconstriction in Sheep: Evidence for Thromboxane A_2/Prostaglandin Endoperoxide– Receptor Activation, 1516
Fractal Nature of Regional Myocardial Blood Flow Heterogeneity, 578

SHR
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475

Single coronary smooth muscle cell
Outward Potassium Currents in Freshly Isolated Smooth Muscle Cell of Dog Coronary Arteries, 1718

Single sodium channel
Blockade of Cardiac Sodium Channels by Lidocaine: Single-Channel Analysis, 1247

Singlet oxygen
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146

Single ventricular myocyte
Ionic Basis and Analytical Solution of the Wenckebach Phenomenon in Guinea Pig Ventricular Myocytes, 775
Slow Recovery of Excitability and the Wenckebach Phenomenon in the Single Guinea Pig Ventricular Myocyte, 761

Sinoaortic baroreflex
Effect of Chronic Myocardial Infarction on Vagal Cardiopulmonary Baroreflex, 396

Sinoatrial junction
Distribution of Conduction System Fibers in the Developing and Adult Rabbit Heart Revealed by an Antineurofilament Antibody, 360

Sinus node
Mathematical Model of the Changes in Heart Rate Elicited by Vagal Stimulation, 1330

Skeletal muscle
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997

Smooth muscle
Decreased Cardiac Concentration of cGMP Kinase in Hypertensive Animals: An Index for Cardiac Vascularization?, 1361

Smooth muscle cells
Effect of Platelet Factors on Migration of Cultured Bovine Aortic Endothelial and Smooth Muscle Cells, 1057
Morphometric Analyses of Rabbit Thoracic Aorta After Poststenotic Dilatation, 1774
Sodium-calcium exchange
Alterations in Calcium Antagonist Receptors and Sodium-Calcium Exchange in Cardiomyopathic Hamster Tissues, 205
Sodium-channel inactivation
Blockade of Rabbit Atrial Sodium Channels by Lidocaine: Characterization of Continuous and Frequency-Dependent Blocking, 723
Sodium channels
Amiodarone: Biochemical Evidence for Binding to a Receptor for Class I Drugs Associated With the Rat Cardiac Sodium Channel, 477
Angiotensin II Modulates Cardiac Na^+ Channels in Neonatal Rat, 1804
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
Stereoselective Block of Cardiac Sodium Channels by RAC109 in Single Guinea Pig Ventricular Myocytes, 1306
Sodium current
Blockade of Rabbit Atrial Sodium Channels by Lidocaine: Characterization of Continuous and Frequency-Dependent Blocking, 723
Rate-Dependent Changes in Intraventricular Conduction Produced by Procainamide in Anesthetized Dogs: A Quantitative Analysis Based on the Relation Between Phase 0 Inward Current and Conduction Velocity, 1485
Sodium excretion
Atrial Natriuretic Factor–Specific Antibody As a Tool for Physiological Studies: Evidence for Role of Atrial Natriuretic Factor in Aldosterone and Renal Electrolyte Regulation, 1324
Sonomicrometer
$F(ab')_2$ Fragments of Anti-Mo1 (904) Monoclonal Antibodies Do Not Prevent Myocardial Stunning, 1112
Specialized conduction system
Origin, Domain, and Dynamics of Rate-Induced Variations of Functional Refractory Period in Rabbit Atrioventricular Node, 164
Spinal cord
Thyrotropin-Releasing Hormone Given Intrathecally to the Rat Increases Arterial Pressure and Heart Rate, 859
Spin trapping
Inhibition of Sarcolemmal Carbon-Centered Free Radical Formation by Propranolol, 1151
Spin traps
Marked Reduction of Free Radical Generation and Contractile Dysfunction by Antioxidant Therapy Begun at the Time of Reperfusion: Evidence That Myocardial "Stunning" Is a Manifestation of Reperfusion Injury, 607
Spontaneous activity
Amantadine-Induced Afterpotentials and Automaticity in Guinea Pig Ventricular Myocytes, 880
Static exercise
Effects of Partial Neuromuscular Blockade on Sympathetic Nerve Responses to Static Exercise in Humans, 468
Stereoisomers
Stereoselective Block of Cardiac Sodium Channels by RAC109 in Single Guinea Pig Ventricular Myocytes, 1306
Stress analysis
Constitutive Relations and Finite Deformations of Passive Cardiac Tissue II. Stress Analysis in the Left Ventricle, 805
Stress-strain
Constitutive Relations and Finite Deformations of Passive Cardiac Tissue II. Stress Analysis in the Left Ventricle, 805
Stretch
Increased Cyclic AMP Content Accelerates Protein Synthesis in Rat Heart, 647
Stroke volume
Effects of Increasing Afterload on Left Ventricular Output in Fetal Lambs, 127
Systolic Direct Ventricular Interaction Affects Left Ventricular Contraction and Relaxation in the Intact Dog Circulation, 307
Subendocardial function
Abnormal Subendocardial Blood Flow in Pressure Overload Hypertrophy Is Associated With Pacing-Induced Subendocardial Dysfunction, 1555
Subfragment-1
Biochemical Kinetics of Porcine Cardiac Subfragment-1: II. Pre–Steady-State Studies of the Initial Phosphate Burst, 515
Superoxide
Rapid Electrophysiological Changes Leading to Arrhythmias in the Aerobic Rat Heart: Photosensitization Studies With Rose Bengal–Derived Reactive Oxygen Intermediates, 146
Superoxide anion
Rabbit Polymorphonuclear Neutrophils Elicit Endothelium-Dependent Contraction in Vascular Smooth Muscle, 917
Superoxide dismutase
Protection by Superoxide Dismutase From Myocardial Dysfunction and Attenuation of Vasodilator Reserve After Coronary Occlusion and Reperfusion in Dog, 1283
Sympathetic
Inhibition of Cardiac Vagal Effects by Neurally Released and Exogenous Neuropeptide Y, 1536
Thyrotropin-Releasing Hormone Given Intrathecally to the Rat Increases Arterial Pressure and Heart Rate, 859
Sympathetic nerve
Baroreflex Control of Renal Sympathetic Nerve Activity Is Preserved in Heart Failure Despite Reduced Arterial Baroreceptor Sensitivity, 1526
Sympathetic nerve activity
Effects of Partial Neuromuscular Blockade on Sympathetic Nerve Responses to Static Exercise in Humans, 468
Relation Between Sympathetic Outflow and Vascular Resistance in the Calf During Perturbations in Central Venous Pressure: Evidence for Cardiopulmonary Afferent Regulation of Calf Vascular Resistance in Humans, 1710
Sympathetic nervous system
Opiate Receptor Antagonism in Right-Sided Congestive Heart Failure: Naloxone Exerts Salutary Hemodynamic Effects Through Its Action on the Central Nervous System, 103

T

Tachycardia
Electrophysiological Determinants of Antidromic Reentry Induced During Atrial Extrastimulation: Insights From a Pacing Model of Wolff-Parkinson-White Syndrome, 295
Technetium sesta MIBI
Comparison of the Myocardial Uptake of a Technetium-Labeled Isonitrile Analogue and Thallium, 632
2-Tetradecyclglycidic acid
Effects of Inhibition of Fatty Acid Oxidation on Myocardial Kinetics of ^{11}C-Labeled Palmitate, 1787
Tetraethylammonium
Current Fluctuations and Oscillations in Smooth Muscle Cells From Hog Carotid Artery: Role of the Sarcoplasmic Reticulum, 708
Thallium-201
Comparison of the Myocardial Uptake of a Technetium-Labeled Isonitrile Analogue and Thallium, 632
Theophylline
Enhanced Sensitivity of Heart Cells to Adenosine and Up-Regulation of Receptor Number After Treatment of Guinea Pigs With Theophylline, 1066
Pharmacological Evidence for A_1 and A_2 Adenosine Receptors in the Skin Microcirculation, 176
Thiole
N-Acetylcysteine Potentiates Platelet Inhibition by Endothelium-Derived Relaxing Factor, 789

Thrombin
A Plasmatic Factor May Cause Platelet Activation in Acute Ischemic Stroke, 1679
Thromboxane
Adenosine Produces Pulmonary Vasoconstriction in Sheep: Evidence for Thromboxane A_2/Prostaglandin Endoperoxide– Receptor Activation, 1516
Effects of Recombinant Human Tumor Necrosis Factor Alpha, Lymphotoxin, and *Escherichia coli* Lipopolysaccharide on Hemodynamics, Lung Microvascular Permeability, and Eicosanoid Synthesis in Anesthetized Sheep, 502
Increased Thromboxane Biosynthesis During Coronary Thrombolysis: Evidence That Platelet Activation and Thromboxane A_2 Modulate the Response to Tissue-Type Plasminogen Activator In Vivo, 83
Thyrotropin-releasing hormone
Thyrotropin-Releasing Hormone Given Intrathecally to the Rat Increases Arterial Pressure and Heart Rate, 859
Tissue oxygenation
Capillary Growth in Anemia-Induced Ventricular Wall Remodeling in the Rat Heart, 1182
Tissue-type plasminogen activator
Increased Thromboxane Biosynthesis During Coronary Thrombolysis: Evidence That Platelet Activation and Thromboxane A_2 Modulate the Response to Tissue-Type Plasminogen Activator In Vivo, 83
Synergistic Disaggregation of Platelets by Tissue-Type Plasminogen Activator, Prostaglandin E_1, and Nitroglycerin, 796
Total mechanical energy
The Linear Relation Between Oxygen Consumption and Pressure-Volume Area Can Be Reconciled With the Fenn Effect in Dog Left Ventricle, 1380
Tracer bicarbonate
Handling of Tracer Bicarbonate by the Liver: The Relative Impermeability of Hepatocyte Cell Membranes to the Ionic Species, 1646
Tracers
The Behavior of Sonicated Albumin Microbubbles Within the Microcirculation: A Basis for Their Use During Myocardial Contrast Echocardiography, 458
Transgenic mice
Vascular Remodeling in the Growth Hormone Transgenic Mouse, 1233
Transient inward current
Cellular Origins of the Transient Inward Current in Cardiac Myocytes: Role of Fluctuations and Waves of Elevated Intracellular Calcium, 115
Transmural distribution
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Transmural pressure
Pressure Releases a Transferable Endothelial Contractile Factor in Cat Cerebral Arteries, 193
Transport functions
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Troponin
Molecular Cloning and Expression of Chicken Cardiac Troponin C, 1241
TTX
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
TTX-sensitive inward current
Amantadine-Induced Afterpotentials and Automaticity in Guinea Pig Ventricular Myocytes, 880

U

U46619
Thromboxane Is Produced in Response to Intracoronary Infusions of Complement C5a in Pigs: Cyclooxygenase Blockade Does Not Reduce the Myocardial Ischemia and Leukocyte Accumulation, 1220

V

Vagal stimulation
Acetylcholine Causes Coronary Vasodilation in Dogs and Baboons, 1580
Vasa vasorum
Intramural Hemorrhage and Endothelial Changes in Atherosclerotic Coronary Artery After Repetitive Episodes of Spasm in X-ray–Irradiated Hypercholesterolemic Pigs, 272
Vascularization
Decreased Cardiac Concentration of cGMP Kinase in Hypertensive Animals: An Index for Cardiac Vascularization?, 1361
Vascular remodeling
Vascular Remodeling in the Growth Hormone Transgenic Mouse, 1233
Vascular smooth muscle
Electrophysiological Mechanisms of Minoxidil Sulfate–Induced Vasodilation of Rabbit Portal Vein, 1102
Pharmacological Evidence for A_1 and A_2 Adenosine Receptors in the Skin Microcirculation, 176
Sodium-Lithium Exchange and Sodium-Proton Exchange Are Mediated by the Same Transport System in Sarcolemmal Vesicles From Bovine Superior Mesenteric Artery, 818
Vasoactive intestinal peptide
Vasoactive Intestinal Peptide Receptor in Failing Human Ventricular Myocardium Exhibits Increased Affinity and Decreased Density, 283
Vasoactive intestinal peptide receptors
Vasoactive Intestinal Peptide Receptor in Failing Human Ventricular Myocardium Exhibits Increased Affinity and Decreased Density, 283
Vasoconstriction
Contribution of the Baroreflex Afferent Nerves to the Production of Vasoconstricted Hypertension in Volume-Expanded Dogs, 1467
Ionic Requirements of the Endothelin Response in Aorta and Portal Vein, 265
Vasodilation
Coronary Pressure-Flow Relations in Hypertensive Left Ventricular Hypertrophy: Comparison of Intact Autoregulation With Physiological and Pharmacological Vasodilation in the Dog, 224
Electrophysiological Mechanisms of Minoxidil Sulfate–Induced Vasodilation of Rabbit Portal Vein, 1102
Endothelium-Dependent Relaxation and Cyclic GMP Accumulation in Rabbit Pulmonary Artery Are Selectively Impaired by Moderate Hypoxia, 1508
Vasodilatory regulation
Blood-Tissue Exchange via Transport and Transformation by Capillary Endothelial Cells, 997
Vasopressin
Differential Cardiovascular Effects of Centrally Administered Vasopressin in Conscious Long Evans and Brattleboro Rats, 925
Microcirculation of the Area Postrema: Permeability and Vascular Responses, 417
Vasospasm
Effects of Endothelin on the Coronary Vascular Bed in Open-Chest Dogs, 1193
Ventricle
Immunological Identification of Five Troponin T Isoforms Reveals an Elaborate Maturational Troponin T Profile in Rabbit Myocardium, 1087
Ventricular cells
Multiple Types of Ca^{2+} Currents in Single Canine Purkinje Cells, 1735
Ventricular deformation
Effect of Left Ventricular Volume on Right Ventricular End-Systolic Pressure-Volume Relation: Resetting of Regional Preload in Right Ventricular Free Wall, 623
Ventricular end-systolic pressure-volume relation
Ventriculoarterial Coupling in Normal and Failing Heart in Humans, 483

Ventricular function
Abnormal Subendocardial Blood Flow in Pressure Overload Hypertrophy Is Associated With Pacing-Induced Subendocardial Dysfunction, 1555
Effects of Increasing Afterload on Left Ventricular Output in Fetal Lambs, 127
Role of Intracellular Na^+ in Ca^{2+} Overload and Depressed Recovery of Ventricular Function of Reperfused Ischemic Rat Hearts: Possible Involvement of H^+-Na^+ and Na^+-Ca^{2+} Exchange, 1045

Ventricular interaction
Effect of Acutely Increased Right Ventricular Afterload on Work Output From the Left Ventricle in Conscious Dogs: Systolic Ventricular Interaction, 135
Nonhomogeneous Left Ventricular Regional Shortening During Acute Right Ventricular Pressure Overload, 43

Ventricular interdependence
Effect of Acutely Increased Right Ventricular Afterload on Work Output From the Left Ventricle in Conscious Dogs: Systolic Ventricular Interaction, 135

Ventricular isoenzymes
Differential Effect of Physical Exercise Routines on Ventricular Myosin and Peripheral Catecholamine Stores in Normotensive and Spontaneously Hypertensive Rats, 370

Ventricular mechanical efficiency
Ventriculoarterial Coupling in Normal and Failing Heart in Humans, 483

Ventricular preexcitation
Electrophysiological Determinants of Antidromic Reentry Induced During Atrial Extrastimulation: Insights From a Pacing Model of Wolff-Parkinson-White Syndrome, 295

Ventricular stroke work
Ventriculoarterial Coupling in Normal and Failing Heart in Humans, 483

Ventricular subendocardium
Distribution of Conduction System Fibers in the Developing and Adult Rabbit Heart Revealed by an Antineurofilament Antibody, 360

Ventricular weight
Hemodynamics of the Stage 12 to Stage 29 Chick Embryo, 1665

Verapamil
Inhibition of ATP-Sensitive Potassium Channels of Adult Rat Heart Cells by Antiarrhythmic Drugs, 1157
Significance of Myocardial α- and β-Adrenoceptors in Catecholamine-Induced Cardiac Hypertrophy, 1417

Voltage clamp
Electrophysiological Mechanisms of Minoxidil Sulfate–Induced Vasodilation of Rabbit Portal Vein, 1102

Volume expansion
Contribution of the Baroreflex Afferent Nerves to the Production of Vasoconstricted Hypertension in Volume-Expanded Dogs, 1467

Volume loading
Effects of Increasing Afterload on Left Ventricular Output in Fetal Lambs, 127

W

Wenckebach periodicity
Ionic Basis and Analytical Solution of the Wenckebach Phenomenon in Guinea Pig Ventricular Myocytes, 775
Slow Recovery of Excitability and the Wenckebach Phenomenon in the Single Guinea Pig Ventricular Myocyte, 761

WKY
Pressure-Induced Vasoconstriction of Renal Microvessels in Normotensive and Hypertensive Rats: Studies in the Isolated Perfused Hydronephrotic Kidney, 1475

Wolff-Parkinson-White syndrome
Electrophysiological Determinants of Antidromic Reentry Induced During Atrial Extrastimulation: Insights From a Pacing Model of Wolff-Parkinson-White Syndrome, 295

X

X-ray irradiation
Intramural Hemorrhage and Endothelial Changes in Atherosclerotic Coronary Artery After Repetitive Episodes of Spasm in X-ray–Irradiated Hypercholesterolemic Pigs, 272

Z

Zero-stress state
Change of Residual Strains in Arteries due to Hypertrophy Caused by Aortic Constriction, 1340
